Subject: Re: Allied site - city proposed compromise - media inquiry

Thanks! I'm supposed to write about it today. So even a written statement would help if there's no time for an interview. Basically would want to know - if yes, EPA is taking part in discussions about a different option for the Allied site. How would adding a new option into consideration work in the EPA's superfund process? I heard last the ROD on this OU would likely be out in Fall 2015. Is that correct? Would this proposal delay that process at all? Best~

Hi Francisco,

I'm writing about the city of Kalamazoo backing away from total removal for the Allied site. It put out a press release that's it is proposing a compromise. Is there any chance that the EPA would redo its feasibility study to include such an option? If you could, please let me know either way.

Thanks!

All the best,
